

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CASES IN GEORGIA REPORTS,
AND GEORGIA COURT OF APPEALS REPORTS,
THAT HAVE BEEN
OVERRULED, DOUBTED, CRITICISED
OR MODIFIED.

EXPLANATIONS.

/ means "Georgia Reports." Thus, 120/357 means 120th Ga. 357.

— means "Court of Appeals Reports." Thus, 5—752 means 5th Court of Appeals Reports, page 752.

S means "Southeastern Reporter." Thus, 87s500 means 87 Southeastern Reporter p. 500.

The case that is overruled, doubted, etc., is on the left of the perpendicular line that runs down the page. The overruling case is on the right of that line and right beside the overruled case. Thus, near the top of the next page, we see that 1 Ga. 315 (1) is overruled by 10 Ga. 558.

The author has endeavored to be very conservative and to avoid misleading anyone. Accordingly, no case is put down as overruled, doubted, etc., unless the case is directly cited and expressly overruled, doubted, etc.

All Code sections cited are sections of the last Civil Code unless otherwise stated.

The Court of Appeals cases that are overruled, doubted, etc., appear on page 123, et seq.

"Top." "Bot" (meaning "Bottom"). On page 104 we see that 115/243(1) (top) is explained by 128/156 and 19—736-7. That means that two cases begin on page 243 of the 115 Ga., and that the case beginning nearest the top of that page is the case meant.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters.

2. The second part outlines the various methods and tools used to collect and analyze data. It mentions the use of surveys, interviews, and statistical analysis to gather information and draw meaningful conclusions from the data.

3. The third part focuses on the ethical considerations surrounding data collection and analysis. It highlights the need to protect individual privacy and ensure that data is used responsibly and for its intended purpose.

4. The fourth part discusses the challenges and limitations of data analysis. It acknowledges that while data provides valuable insights, it is not always perfect and can be subject to various biases and errors.

5. The fifth part concludes the document by summarizing the key findings and recommendations. It reiterates the importance of a systematic and ethical approach to data collection and analysis, and encourages ongoing research and improvement in the field.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations

(1)
$$\frac{dx}{dt} = f(x, y, z), \quad \frac{dy}{dt} = g(x, y, z), \quad \frac{dz}{dt} = h(x, y, z)$$

where f, g, h are continuous functions of x, y, z and satisfy certain conditions. It is shown that under these conditions there exists a unique solution of the system (1) which satisfies the initial conditions

(2)
$$x(0) = x_0, \quad y(0) = y_0, \quad z(0) = z_0$$

where x_0, y_0, z_0 are arbitrary constants.

The second part of the paper is devoted to a study of the properties of the solution of the system (1) which satisfies the initial conditions (2).

It is shown that the solution of the system (1) which satisfies the initial conditions (2) is unique and that it depends continuously on the initial conditions.

It is also shown that the solution of the system (1) which satisfies the initial conditions (2) is bounded for all t and that it approaches a certain limit as $t \rightarrow \infty$.

The third part of the paper is devoted to a study of the properties of the solution of the system (1) which satisfies the initial conditions (2) and which is bounded for all t and approaches a certain limit as $t \rightarrow \infty$.

It is shown that the solution of the system (1) which satisfies the initial conditions (2) and which is bounded for all t and approaches a certain limit as $t \rightarrow \infty$ is unique and that it depends continuously on the initial conditions.

It is also shown that the solution of the system (1) which satisfies the initial conditions (2) and which is bounded for all t and approaches a certain limit as $t \rightarrow \infty$ is bounded for all t and approaches a certain limit as $t \rightarrow \infty$.

The fourth part of the paper is devoted to a study of the properties of the solution of the system (1) which satisfies the initial conditions (2) and which is bounded for all t and approaches a certain limit as $t \rightarrow \infty$.

It is shown that the solution of the system (1) which satisfies the initial conditions (2) and which is bounded for all t and approaches a certain limit as $t \rightarrow \infty$ is unique and that it depends continuously on the initial conditions.
